BARRETT TOWNSHIP
JUNE 5, 1930

BARRETT

Residents of Barrett Township must pull together if we as a community are to derive the greatest good from our common resources. We do pull together surprisingly well, but we are all just a bit particular about our own identity. The changing of the Canadensis telephone exchange to Cresco brought the situation to a head.

Why, then, not merge the series of town names by designating each "in Barrett Township"? For example, people who have never been through the district do not realize that a good baseball player could stand in Cresco and throw a stone into Mountainhome or that a good shove would send a boulder from Skytop to Canadensis without much effort. They do not know that Buck Hill is so close to Mountainhome on one side and Canadensis on the other that the division line is hard to find.

If, however, it were "Cresco-in-Barrett Township", "Mountainhome-in-Barrett" (if the "Township" seems too lengthy) or "Skytop-in-Barrett" then when someone said "Canadensis in Barrett" the listener would immediately say "Oh yes, near Buck Hill" or "That's at Cresco."

Thousands have been spent each season by the various towns to establish their names. A great many more dollars will be spent this year and in succeeding years for the same purpose. Why not add the little phrase "In Barrett Township". You won't lose your identity. You will merely help establish the idea of Barrett Township being the Vacationland of the Poconos.

HERE WE ARE

After much delay, we are here—with plenty of faults, lots of failings and perhaps a few good points. We aim in this issue to show you what can be done in collecting news of the district and putting it into print so that it can be broadcast throughout our community, and among the guests of the various hotels, lodges and cottages in Barrett.

We are sure we have missed some of these houses in the district. We know that we have not covered all the business establishments. In

apology we mention Segulne's, George Arnst, John Blackfan's coal yard, Evans, Overlook, Henry Price House, Villa Caprioli, Hamblin's Lunch Place, the Cresco Garage, etc., to name a few we read from the telephone book in the last rush. Again we ask your pardon and request that you write or phone us to be included in the next issue of the "BARRETT NEWS".
